BUSHING F 5 mm, 8 mm

Bushing F

- suitable for rounding and stripping the edges of opening in metal panels
- prevents damage or cutting of the cable
- convenient and very quick installation by simply snapping into the panel - reduces installation costs
- quickly and economically modifies openings in panels

-	-
Material	Nylon 66 (Polyamid 6.6)
Operating temperature	-40°C až +85°C
For panel thickness (sheet metal)	to 3,2 mm
Color	black
Flammability	UL 94V-2

Application:

- in cases where it is necessary to route a cable through an opening in a panel and there is a risk of damage or cutting of the cable by the edge of the opening
